

Employer BENEFITS

Strategic Objective

Primebyte BA (Benefits Administration) addresses the business goals of

Employers - employee empowerment and satisfaction with reduced administrative costs

The Primebyte BA product is a fully-integrated, on-line solution designed to support the requirements of managing employee benefits.

Primebyte BA delivers application features that improve productivity, enhance customer service and optimize communications between all stakeholders.

Primebyte BA automates all aspects of benefits administration management: saving time, increasing accuracy and putting important decision information at your fingertips.

Employer FEATURE BENEFITS

Document Management

This powerful feature promotes employer / employee communications, helps organize materials and provides a repository for information exchange.

The repository supports unlimited employer custom documents that include: policies, procedures, guidelines, alerts, announcements, newsletters, etc.

Technology Friendly

Primebyte BA's design, delivery method and integration capabilities protect existing application investments. It eliminates capital investment, maintenance and technical concerns, expedites implementation and provides world-class performance and security.

All that is needed is Internet access.

Employee (Information Exchange) Portal

Primebyte BA provides employers with a powerful portal for the display, collection, maintenance and exchange of information.

With ***Document Management***, employers have unlimited capabilities to communicate information. Information can be static (policies, procedures, guidelines), dynamic (alerts, announcements) or descriptive (benefit plan descriptions).

With ***Electronic Communications***, employers can alert, draw attention to, or drive employees to documents and confirm receipt.

The ***Application's*** data validation, collection and maintenance capabilities, along with BA's ability to export data increases the capabilities of existing system portfolios.

Electronic Communications

By providing several options (e-mail, electronic messaging, confirmations, surveys, to-do's, etc.) Primebyte BA provides the best of self-service with the tools to meet every delivery need.

This addresses common communications needs and unique employer / employee situations with a single solution.

HR & Systems Integration

Exporting data in standard and custom formats, enhances the capabilities of client applications.

Resulting BUSINESS BENEFITS

Enhanced Information Exchange Capabilities

Primebyte BA's self-service Information Exchange Portal and systems integration capabilities provide added value while reducing administrative costs.

Solution Migration Path

Broker / agents can offer clients other Primebyte compatible solutions for Recruitment and Applicant Tracking (e-RAT) and an enterprise-wide Human Resource Information system (HR) which are easy to implement and address critical business functions.
