

*Greeting* and *welcome* to the current offering section of Primebyte.com.

## Product Goals

Our product goals are simple and straightforward: to make each Primebyte product the **most affordable**, **feature rich** application on the market in each industry segment they serve.

## Complete Solution

Primebyte products provide a complete solution including application software, installation services, host services, maintenance and customer support.

## Technology Friendly - ASP Delivery Model

Primebyte products are fully web-enabled, hosted solutions and delivered via an Application Service Provider (ASP) model. This eliminates technical concerns, capital investment and lengthy installation and maintenance efforts while providing world-class performance and security.

*All that is needed is Internet access.*

## Systems Integration

Primebyte products are designed as inter-operable solutions that **complement** current application portfolios. Primebyte products collect, store, maintain and transfer verifiable data in system specific or industry standard formats (HR, payroll, accounting, MS Excel, PDF, etc.).

## Business Intelligence

Primebyte products are designed to optimize business decisions.

Data and relationships are collected, stored, consolidated and collated to create business intelligence to support and grow the business.

## Solution Migration Path

The Primebyte family of products makes it easy to implement additional compatible solutions between Primebyte products: electronic Recruitment and Applicant Tracking (**e-RAT**), an enterprise-wide Human Resource information system (**HR**), and a Benefits Administration and communication system (**BA**).

## Current Offering

### PRIMEBYTE BA Benefits Administration

Our affordable Benefits Management system (**Primebyte BA**) will be introduced at the **19th Annual Benefits Management Forum & Expo** on September 17 - 19 at the Hyatt Regency in Chicago.

**Primebyte BA** is specifically designed to satisfy the unique requirements of key stakeholders in the benefits management supply chain. **Primebyte BA** delivers integrated functionality to collectively achieve each stakeholder's business objectives:

**Broker / Agents** - business growth, enhanced customer satisfaction and increased profitability

**Employers** - employee empowerment and satisfaction with reduced administrative costs

**Carriers** - industry leadership, increased market share and standardized solution portal

### Special Savings

Price is based on volumes and business needs. Standard components include: installation/set-up, PEPM (per employee per month) and annual maintenance. Optional components include: custom conversion and integration, training and form mapping (for on-line enrollment).

A Primebyte representative will provide a precise cost proposal based on each client's situation.

***By registering today, as an early adopter, you are assured of an additional 25% savings off the standard cost of installation/set-up and PEPM fees for one full year.***

To lock in your savings, simply fill out and send us your contact / registration information and you will be guaranteed the best price available.

***Thank you*** for your interest. We look forward to working with you to obtain the maximum benefits possible for your situation.
